

# MEDICAL CALIBRATION SOURCES

Isotopia is the exclusive representative of **RadQual (USA)** and **LEA (France)** two global leaders in medical imaging calibration and reference sources, serving nuclear medicine departments in Israel.

We provide leading-edge, precise calibration solutions tailored to the unique needs of our customers.

Our comprehensive range of calibration sources is compatible with all major PET/MRI, PET/CT, and hybrid SPECT/CT scanners available in Israel.

All our products comply with the latest production standards (ANSI/ASME, US FDA 21CFR 820, ISO 13485 & 9001).

**Our team is here to help you optimize  
your calibration sources and significantly  
enhance your imaging capabilities**

## RadQual LLC – USA

Since 2001, RadQual LLC has been a world leader in manufacturing and delivering a complete line of top-quality, high-precision calibration products to the nuclear medicine industry. RadQual is the exclusive manufacturer of these products in the U.S.

### Key Features:

- Maintains comprehensive calibration standards for **SPECT/PET imaging systems** and **nuclear pharmacies**
- Provides NIST **traceable sources** for precise calibration
- **Certified according to ISO 9001 and 13485** standards for medical devices

## LEA (The Radioactivity Standards Laboratory) – France

LEA, founded in 1990 as a subsidiary of the **Orano Group**, is France's largest manufacturer of radioactive sources. LEA specializes in producing a wide array of **calibration sources** for an extensive range of applications, including medical imaging, radiation protection, and industrial and environmental monitoring.

### Key Features:

- **COFRAC accredited** for reliable, top-notch calibration
- Offers **sealed** calibration sources
- Provides **custom calibration solutions** for a variety of medical, industrial, and research applications

## Additional Support from Isotopia

To further support your needs, Isotopia provides a wide range of solutions tailored to your needs, all at competitive prices.

- **Radiation protection:** We provide top-quality shielding solutions to ensure safety and compliance.
- **Auxiliary equipment:** We offer additional products that complement your calibration needs.
- **Regulatory-compliant imports:** We handle all the necessary paperwork to ensure compliance with Israeli regulations.
- **Expert consultation** ensures seamless integration into your operations.
